GARDENING FOR LIFE

The Professional Lawn &
Garden Watering Sprinkler Manufacturer

www.garden-sprinkler.com.tw

MAMMOTH
Lawn & Garden Products

About MAMMOTH

With a strong R&D team and comprehensive production capabilities, including plastic injection molding and zinc alloy die-casting equipment, MAMMOTH handles all customer orders entirely in-house with strict confidentiality. From functional and structural design to mold development, and final sprinkler production, every stage is completed through an integrated process. This end-to-end operation makes MAMMOTH a reliable and competitive ODM partner.

Mammoth is a professional lawn and garden sprinkler manufacturer.

EXPORT OVER 20 COUNTRIES

With manufacturing facilities located in Taiwan and Ningbo, China,
we offer a wide range of products including hose nozzles, impulse sprinklers,
hose connectors, and related irrigation accessories.

Greening for a Better Environment

Greening is the process of adding plants, grass, and trees to urban or residential areas to improve air quality, reduce heat, and enhance the overall environment. A well-designed irrigation system plays a key role in maintaining healthy, green spaces efficiently. With the right watering solutions, lawns and landscapes stay vibrant while conserving water and reducing maintenance costs. Greening not only creates a more beautiful space but also supports a healthier and more sustainable future.

Success

With high quality and competitve price

NB2790

BRASS IMPULSE ON TRIPOD STAND

- For extra high coverage and even larger distances
- Long lasting brass head construction
- Spiked feet for added stability

NB2133

BRASS IMPULSE ON ONE STEP SPIKE

- Heavy duty die cast zinc spike with step is easy to stand in ground

NB2134

BRASS IMPULSE ON CROSS SPIKE

- Heavy duty die cast zinc spike with step is easy to stand in ground

NB2135

BRASS IMPULSE ON ZINC BASE

- Heavy duty die cast zinc home base is more stable

NB2136

BRASS IMPULSE ON ZINC CIRCULAR BASE

- Heavy duty die cast zinc circular base is more stable

NB2120

DELUXE ZINC IMPULSE SPRINKLER

- Provides full or partial coverage
- Easy fingertip adjustment diffuser screw for even coverage
- Long lasting brass and zinc construction

NB2122

DELUXE ZINC IMPULSE ON TRIPLE SPIKE

- Provides full or partial coverage
- Easy fingertip adjustment diffuser screw for even coverage
- Heavy duty die casting aluminum triple spike

NB2123

DELUXE ZINC IMPULSE ON CROSS SPIKE

- Provides full or partial coverage
- Easy fingertip adjustment diffuser screw for even coverage
- Heavy duty die casting zinc triple spike

NB2795

DELUXE ZINC IMPULSE ON TRIPOD STAND

- For extra high coverage and even larger distances
- Long lasting brass head construction
- Spiked feet for added stability

NB2121

DELUXE ZINC IMPULSE ON STEP SPIKE

- Heavy duty die cast zinc spike base with step is easy to stand in sand
- Easy fingertip adjustment diffuser screw for even coverage

NB2124

DELUXE ZINC IMPULSE ON CIRCULAR BASE

- Heavy duty die cast zinc circular base is more stable
- Easy fingertip adjustment diffuser screw for even coverage

NB2125

DELUXE ZINC IMPULSE ON SLED BASE

- Heavy duty die cast zinc sled base is more stabie
- Easy fingertip adjustment diffuser screw for even coverage

NB2126

DELUXE ZINC IMPULSE ON SLED BASE

- Poly sled base
- Easy fingertip adjustment diffuser screw for even coverage
